

## Agrupación Vicenta mines tour

Tuesday 26.07.2016

Visitors to the Parque Minero go down 80 metres into a 4000 square metre mineworking, complete with glowing orange lake.

The Parque Minero in La Unión opened in the summer of 2010, following 7 years of work to create a unique visitor attraction which celebrates the mining history of La Unión.

Externally, the park covers an area of 50,000 square metres, winding up through the folds of the Sierra Minera, the earth stained with the red and vivid orange tones which characterize the presence of the valuable and useful minerals, which have been mined in this area for thousands of years.

The tour takes two hours and begins with an audio-visual presentation which explains a little about the history of the area and the men who worked these mines and finishes with the visit to the Agrupación Vicenta mine, as the main attractive in the Parque Minero.

Once finished the visit to the mine, the mine train is used to come back to the interpretation centre, where souvenirs can be purchased.

### *Included in the Tour:*

- Audio-visual presentation in the Interpretation Centre of the Parque Minero.
- Travel in miner train.
- Guided visit to the Agrupación Vicenta mine.
- Visit to the outdoor facilities of the Pablo and Virginia mines.
- Balcony and path to the Remunerada laundry.

## Licor 43 Tour

Wednesday 27.07.2016

CUARENTA Y TRES

Discover the secrets of the world's number one Spanish liqueur on the 2 hour Experiencia 43 tour.

Both the tour and its setting are infused with the flavours, history and culture of Licor 43. The architecture of the Licor 43 factory, where your tour takes place, reflects our Spanish Pasión for life in its bright façade; drink in the glowing gold and yellow, passionate red and earthy green tones of the exterior while running your eyes over the tangled leaves and branches enclosing its walls.

Once you enter, you'll find yourself immersed in the Mediterranean countryside in a sensory area designed especially for our guests. Learn more about the history of Licor 43, inhale the scents of citrus plants and taste our favourite cocktails in our beautiful Mediterranean garden.

If you can tear yourself away from this little slice of paradise, you'll then explore the history of the brand and the evolution of the product in our exhibition. There, you'll find everything from our oldest advertising campaigns to the tools used in the historical manufacture of Licor 43.

Finally, walk around the factory and watch the process behind the gold – and see if you can guess some of the liquid's secret ingredients.

### Cartagena port of cultures

Cartagena is a city with more than 2,500 years of history. Each corner, street and square of the city offers travellers monumental examples of its splendid historical past, of the civilizations that put in at its port.

The Cartagena initiative, "Port of Cultures", opens up a wide range of possibilities which enable the visitor to enjoy the city's heritage and cultural riches: to find out about its origins by visiting the Punic Walls, evidence of the founding of the city by the Carthaginian Asdrubal in the year 227 B.C., where a Visitor Activity Centre will explain all about that fundamental part of its history and the local archaeology.

Cartagena "Port of Cultures" has developed these riches into a unifying theme in order to make it more accessible to visitors. Just by strolling around we soon discover that the city also possesses a military history which takes us right back to mediaeval times when the Castle of the Conception was built. It is here where a Visitor Activity Centre offers information about the city and its history in a place which has been chosen for its privileged setting.
